

Arnav Prashant Bule

Software Engineer · B.Tech Computer Science, Class of 2026 · 7× Databricks & AWS Certified

+91 87676 02012 | arnav.bule05@gmail.com | [linkedin.com/in/arnavbule](https://www.linkedin.com/in/arnavbule) | github.com/GODOSTROYER | Pune, India

PROFILE

Final-year B.Tech Computer Science student (Class of 2026, CGPA 8.2) with three engineering internships across cloud data platforms, backend services, and applied AI. Strong grounding in object-oriented programming, data structures, problem-solving, and SQL; hands-on daily with Git, Docker, AWS/Azure, and CI/CD. Quick learner, comfortable shipping production-quality work in Agile teams.

EDUCATION

MIT Art, Design & Technology University

B.Tech in Computer Science Engineering · CGPA: 8.2 / 10 · No active backlogs

2022 – May 2026

Pune, India

TECHNICAL SKILLS

Languages	Python · C++ · JavaScript · TypeScript · SQL
CS Fundamentals	Object-Oriented Programming · Data Structures & Algorithms · DBMS · REST API Design · Linux
Databases	MySQL · PostgreSQL · SQL Server · MongoDB · Redis · BigQuery
Cloud & DevOps	AWS · Azure · GCP · Docker · Kubernetes · Terraform · CI/CD (GitHub Actions, Azure DevOps, Harness)
Data & AI	PySpark · Databricks · Delta Lake · Power BI · MLflow · Pandas · RAG
Practices	Git & GitHub · Agile / Scrum · Code Reviews · Automated Testing (Jest, Playwright) · OAuth 2.0

EXPERIENCE

Data Engineer Intern

V4C.ai

Sept 2025 – Present

Remote

- Build end-to-end ETL pipelines on Azure Databricks (PySpark, Delta Lake, Auto Loader) with Medallion architecture.
- Write complex SQL and PySpark transformations — cleansing, deduplication, joins, aggregations — enforcing data quality.
- Ship changes via Git-based, environment-aware CI/CD (Databricks Jobs & Asset Bundles) in an Agile, cross-functional team.

Gen AI Intern — CTO Office

Persistent Systems

Sept 2025 – Mar 2026

Pune, India

- Designed a Node.js/Express backend applying OOP design patterns and RESTful APIs; integrated Gmail API via OAuth 2.0.
- Implemented Retrieval-Augmented Generation (RAG) with LanceDB for semantic search over email data.
- Engineered batch processing with 10 concurrent requests, accelerating ingestion 5–7× with throttling and error handling.

AI Research & Development Intern

IS360 Technologies

Jul 2024 – Dec 2024

Pune, India

- Built a Python pipeline for noisy EEG time-series data; applied Linear Discriminant Analysis to classify P300 brain signals.

PROJECTS

End-to-End DevSecOps CI/CD Pipeline *AWS · Terraform · CloudFormation · GitHub*

2025

- Automated build–test–release with AWS CodeBuild, CodeDeploy, CodeArtifact — CI, testing, release management.
- Provisioned infrastructure as code with Terraform and CloudFormation; configured IAM and S3 per DevSecOps practice.

Full-Stack Task Tracker *Next.js 15 · TypeScript · Express · MongoDB · Redis*

2025

- Built a REST API with Express + TypeScript; secure auth with email OTP, JWT sessions, and bcrypt hashing.
- Added Redis caching (5-min TTL, auto-invalidation) and drag-and-drop Kanban ordering persisted via MongoDB `bulkWrite`.

Sicklesense — AI-Powered Medical Screening *Python · TensorFlow · Docker · Streamlit*

2025

- Fine-tuned ResNet50 detecting sickle cells at 92%+ accuracy, cutting screening cost ~95% (≈ Rs. 75/test).

CERTIFICATIONS

Databricks (5×) Data Engineer Professional & Associate · Machine Learning Professional · Data Analyst Associate
Generative AI Engineer Associate

AWS (2×) Solutions Architect Associate · Machine Learning Engineer Professional

Other Harness Certified CI Developer · Google Project Management Professional Certificate

ACHIEVEMENTS & LEADERSHIP

- \$1,000 Winner** — Horizon AI Hackathon, University of Miami · **Top 25 nationally** — IIT Delhi Youth Ideathon.
- President, Cloud Computing Club** — led a 55+ team, built a 600+ student community · 5× Google Arcade Winner.
- Management Associate, CodeChef Chapter** — grew contest participation 120→350; mentored a 10-member junior team.
